TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

Definitions.

"License" shall mean the terms and conditions for use, reproduction, and
distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright
owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities
that control, are controlled by, or are under common control with that entity.

For the purposes of this definition, "control" means (i) the power, direct or
indirect, to cause the direction or management of such entity, whether by contract
or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding
shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions
granted by this License.

"Source" form shall mean the preferred form for making modifications, including
but not limited to software source code, documentation source, and configuration
files.

"Object" form shall mean any form resulting from mechanical transformation or
translation of a Source form, including but not limited to compiled object code,
generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made
available under the License, as indicated by a copyright notice that is included
in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is
based on (or derived from) the Work and for which the editorial revisions,
annotations, elaborations, or other modifications represent, as a whole, an
original work of authorship. For the purposes of this License, Derivative Works
shall not include works that remain separable from, or merely link (or bind by
name) to the interfaces of, the Work and Derivative Works thereof.
```

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked

or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

Grant of Copyright License.

Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

Grant of Patent License.

Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

Redistribution.

You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

You must give any other recipients of the Work or Derivative Works a copy of this License; and

You must cause any modified files to carry prominent notices stating that You changed the files; and

You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide

additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

Submission of Contributions.

Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

Trademarks.

This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

Disclaimer of Warranty.

Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are

solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

Limitation of Liability.

In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

Accepting Warranty or Additional Liability.

While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third- party archives.

Eclipse Public License - v 2.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC
LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM
CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS

"Contribution" means:

    a) in the case of the initial Contributor, the initial content Distributed
under this Agreement, and

    b) in the case of each subsequent Contributor:

        i) changes to the Program, and

        ii) additions to the Program;

    where such changes and/or additions to the Program originate from and are
Distributed by that particular Contributor. A Contribution "originates" from a
Contributor if it was added to the Program by such Contributor itself or anyone
acting on such Contributor's behalf. Contributions do not include changes or
additions to the Program that are not Modified Works.

"Contributor" means any person or entity that Distributes the Program.

"Licensed Patents" mean patent claims licensable by a Contributor which are
necessarily infringed by the use or sale of its Contribution alone or when
combined with the Program.

"Program" means the Contributions Distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement or any
Secondary License (as applicable), including Contributors.

"Derivative Works" shall mean any work, whether in Source Code or other form, that
is based on (or derived from) the Program and for which the editorial revisions,
annotations, elaborations, or other modifications represent, as a whole, an
original work of authorship.

"Modified Works" shall mean any work in Source Code or other form that results
from an addition to, deletion from, or modification of the contents of the
Program, including, for purposes of clarity any new file in Source Code form that
contains any contents of the Program. Modified Works shall not include works that
contain only declarations, interfaces, types, classes, structures, or files of the
Program solely in each case in order to link to, bind by name, or subclass the
Program or Modified Works thereof.

"Distribute" means the acts of a) distributing or b) making available in any
manner that enables the transfer of a copy.

"Source Code" means the form of a Program preferred for making modifications,
including but not limited to software source code, documentation source, and
configuration files.

"Secondary License" means either the GNU General Public License, Version 2.0, or
any later versions of that license, including any exceptions or additional
permissions as identified by the initial Contributor.

2. GRANT OF RIGHTS

    a) Subject to the terms of this Agreement, each Contributor hereby grants
Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce,
prepare Derivative Works of, publicly display, publicly perform, Distribute and
sublicense the Contribution of such Contributor, if any, and such Derivative
Works.

    b) Subject to the terms of this Agreement, each Contributor hereby grants
Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed

Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in Source Code or other form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to Distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

e) Notwithstanding the terms of any Secondary License, no Contributor makes additional grants to any Recipient (other than those set forth in this Agreement) as a result of such Recipient's receipt of the Program under the terms of a Secondary License (if permitted under the terms of Section 3).

3. REQUIREMENTS

3.1 If a Contributor Distributes the Program in any form, then:

a) the Program must also be made available as Source Code, in accordance with section 3.2, and the Contributor must accompany the Program with a statement that the Source Code for the Program is available under this Agreement, and informs Recipients how to obtain it in a reasonable manner on or through a medium customarily used for software exchange; and

b) the Contributor may Distribute the Program under a license different than this Agreement, provided that such license:

i) effectively disclaims on behalf of all other Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;

ii) effectively excludes on behalf of all other Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;

iii) does not attempt to limit or alter the recipients' rights in the Source Code under section 3.2; and

iv) requires any subsequent distribution of the Program by any party to be under a license that satisfies the requirements of this section 3.

3.2 When the Program is Distributed as Source Code:

a) it must be made available under this Agreement, or if the Program (i) is combined with other material in a separate file or files made available under a Secondary License, and (ii) the initial Contributor attached to the Source Code the notice described in Exhibit A of this Agreement, then the Program may be made available under the terms of such Secondary Licenses, and

b) a copy of this Agreement must be included with each copy of the Program.

3.3 Contributors may not remove or alter any copyright, patent, trademark, attribution notices, disclaimers of warranty, or limitations of liability ('notices') contained within the Program from any copy of the Program which they Distribute, provided that Contributors may add their own appropriate notices.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure

such failure in a reasonable period of time after becoming aware of such
noncompliance. If all Recipient's rights under this Agreement terminate, Recipient
agrees to cease use and distribution of the Program as soon as reasonably
practicable. However, Recipient's obligations under this Agreement and any
licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in
order to avoid inconsistency the Agreement is copyrighted and may only be modified
in the following manner. The Agreement Steward reserves the right to publish new
versions (including revisions) of this Agreement from time to time. No one other
than the Agreement Steward has the right to modify this Agreement. The Eclipse
Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the
responsibility to serve as the Agreement Steward to a suitable separate entity.
Each new version of the Agreement will be given a distinguishing version number.
The Program (including Contributions) may always be Distributed subject to the
version of the Agreement under which it was received. In addition, after a new
version of the Agreement is published, Contributor may elect to Distribute the
Program (including its Contributions) under the new version.

Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no
rights or licenses to the intellectual property of any Contributor under this
Agreement, whether expressly, by implication, estoppel or otherwise. All rights in
the Program not expressly granted under this Agreement are reserved. Nothing in
this Agreement is intended to be enforceable by any entity that is not a
Contributor or Recipient. No third-party beneficiary rights are created under this
Agreement.

Exhibit A – Form of Secondary Licenses Notice

"This Source Code may also be made available under the following Secondary
Licenses when the conditions for such availability set forth in the Eclipse Public
License, v. 2.0 are satisfied: {name license(s), version(s), and exceptions or
additional permissions here}."

Simply including a copy of this Agreement, including this Exhibit A is not
sufficient to license the Source Code under Secondary Licenses.

If it is not possible or desirable to put the notice in a particular file, then
You may include the notice in a location (such as a LICENSE file in a relevant
directory) where a recipient would be likely to look for such a notice.

You may add additional accurate notices of copyright ownership.

2. License Grants.

2.1. The Initial Developer Grant.

Conditioned upon Your compliance with Section 3.1 below and subject to third party intellectual property claims, the Initial Developer hereby grants You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by Initial Developer, to use, reproduce, modify, display, perform, sublicense and distribute the Original Software (or portions thereof), with or without Modifications, and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using or selling of Original Software, to make, have made, use, practice, sell, and offer for sale, and/or otherwise dispose of the Original Software (or portions thereof).

(c) The licenses granted in Sections 2.1(a) and (b) are effective on the date Initial Developer first distributes or otherwise makes the Original Software available to a third party under the terms of this License.

(d) Notwithstanding Section 2.1(b) above, no patent license is granted: (1) for code that You delete from the Original Software, or (2) for infringements caused by: (i) the modification of the Original Software, or (ii) the combination of the Original Software with other software or devices.

2.2. Contributor Grant.

Conditioned upon Your compliance with Section 3.1 below and subject to third party intellectual property claims, each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by Contributor to use, reproduce, modify, display, perform, sublicense and distribute the Modifications created by such Contributor (or portions thereof), either on an unmodified basis, with other Modifications, as Covered Software and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using, or selling of Modifications made by that Contributor either alone and/or in combination with its Contributor Version (or portions of such combination), to make, use, sell, offer for sale, have made, and/or otherwise dispose of: (1) Modifications made by that Contributor (or portions thereof); and (2) the combination of Modifications made by that Contributor with its Contributor Version (or portions of such combination).

(c) The licenses granted in Sections 2.2(a) and 2.2(b) are effective on the date Contributor first distributes or otherwise makes the Modifications available to a third party.

(d) Notwithstanding Section 2.2(b) above, no patent license is
granted: (1) for any code that Contributor has deleted from the Contributor
Version; (2) for infringements caused by: (i) third party modifications of
Contributor Version, or (ii) the combination of Modifications made by that
Contributor with other software (except as part of the Contributor Version) or
other devices; or (3) under Patent Claims infringed by Covered Software in the
absence of Modifications made by that Contributor.

3. Distribution Obligations.

3.1. Availability of Source Code.

Any Covered Software that You distribute or otherwise make available in
Executable form must also be made available in Source Code form and that Source
Code form must be distributed only under the terms of this License. You must
include a copy of this License with every copy of the Source Code form of the
Covered Software You distribute or otherwise make available. You must inform
recipients of any such Covered Software in Executable form as to how they can
obtain such Covered Software in Source Code form in a reasonable manner on or
through a medium customarily used for software exchange.

3.2. Modifications.

The Modifications that You create or to which You contribute are governed
by the terms of this License. You represent that You believe Your Modifications
are Your original creation(s) and/or You have sufficient rights to grant the
rights conveyed by this License.

3.3. Required Notices.

You must include a notice in each of Your Modifications that identifies
You as the Contributor of the Modification. You may not remove or alter any
copyright, patent or trademark notices contained within the Covered Software, or
any notices of licensing or any descriptive text giving attribution to any
Contributor or the Initial Developer.

3.4. Application of Additional Terms.

You may not offer or impose any terms on any Covered Software in Source
Code form that alters or restricts the applicable version of this License or the
recipients' rights hereunder. You may choose to offer, and to charge a fee for,
warranty, support, indemnity or liability obligations to one or more recipients of
Covered Software. However, you may do so only on Your own behalf, and not on
behalf of the Initial Developer or any Contributor. You must make it absolutely
clear that any such warranty, support, indemnity or liability obligation is
offered by You alone, and You hereby agree to indemnify the Initial Developer and
every Contributor for any liability incurred by the Initial Developer or such
Contributor as a result of warranty, support, indemnity or liability terms You
offer.

3.5. Distribution of Executable Versions.

You may distribute the Executable form of the Covered Software under the
terms of this License or under the terms of a license of Your choice, which may
contain terms different from this License, provided that You are in compliance
with the terms of this License and that the license for the Executable form does
not attempt to limit or alter the recipient's rights in the Source Code form from
the rights set forth in this License. If You distribute the Covered Software in
Executable form under a different license, You must make it absolutely clear that
any terms which differ from this License are offered by You alone, not by the
Initial Developer or Contributor. You hereby agree to indemnify the Initial
Developer and every Contributor for any liability incurred by the Initial
Developer or such Contributor as a result of any such terms You offer.

3.6. Larger Works.

You may create a Larger Work by combining Covered Software with other code
not governed by the terms of this License and distribute the Larger Work as a
single product. In such a case, You must make sure the requirements of this
License are fulfilled for the Covered Software.

4. Versions of the License.

   4.1. New Versions.

   Oracle is the initial license steward and may publish revised and/or new versions of this License from time to time. Each version will be given a distinguishing version number. Except as provided in Section 4.3, no one other than the license steward has the right to modify this License.

   4.2. Effect of New Versions.

   You may always continue to use, distribute or otherwise make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. If the Initial Developer includes a notice in the Original Software prohibiting it from being distributed or otherwise made available under any subsequent version of the License, You must distribute and make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. Otherwise, You may also choose to use, distribute or otherwise make the Covered Software available under the terms of any subsequent version of the License published by the license steward.

   4.3. Modified Versions.

   When You are an Initial Developer and You want to create a new license for Your Original Software, You may create and use a modified version of this License if You: (a) rename the license and remove any references to the name of the license steward (except to note that the license differs from this License); and (b) otherwise make it clear that the license contains terms which differ from this License.

5. DISCLAIMER OF WARRANTY.

   COVERED SOFTWARE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE COVERED SOFTWARE IS FREE OF DEFECTS, MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGING. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED SOFTWARE IS WITH YOU. SHOULD ANY COVERED SOFTWARE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED SOFTWARE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS DISCLAIMER.

6. TERMINATION.

   6.1. This License and the rights granted hereunder will terminate automatically if You fail to comply with terms herein and fail to cure such breach within 30 days of becoming aware of the breach. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive.

   6.2. If You assert a patent infringement claim (excluding declaratory judgment actions) against Initial Developer or a Contributor (the Initial Developer or Contributor against whom You assert such claim is referred to as "Participant") alleging that the Participant Software (meaning the Contributor Version where the Participant is a Contributor or the Original Software where the Participant is the Initial Developer) directly or indirectly infringes any patent, then any and all rights granted directly or indirectly to You by such Participant, the Initial Developer (if the Initial Developer is not the Participant) and all Contributors under Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice from Participant terminate prospectively and automatically at the expiration of such 60 day notice period, unless if within such 60 day period You withdraw Your claim with respect to the Participant Software against such Participant either unilaterally or pursuant to a written agreement with Participant.

   6.3. If You assert a patent infringement claim against Participant alleging that the Participant Software directly or indirectly infringes any patent where such claim is resolved (such as by license or settlement) prior to the initiation of patent infringement litigation, then the reasonable value of the licenses granted by such Participant under Sections 2.1 or 2.2 shall be taken into

account in determining the amount or value of any payment or license.

    6.4. In the event of termination under Sections 6.1 or 6.2 above, all end user licenses that have been validly granted by You or any distributor hereunder prior to termination (excluding licenses granted to You by any distributor) shall survive termination.

    7. LIMITATION OF LIABILITY.

    UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED SOFTWARE, OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION MAY NOT APPLY TO YOU.

    8. U.S. GOVERNMENT END USERS.

    The Covered Software is a "commercial item," as that term is defined in 48 C.F.R. 2.101 (Oct. 1995), consisting of "commercial computer software" (as that term is defined at 48 C.F.R. § 252.227-7014(a)(1)) and "commercial computer software documentation" as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Software with only those rights set forth herein. This U.S. Government Rights clause is in lieu of, and supersedes, any other FAR, DFAR, or other clause or provision that addresses Government rights in computer software under this License.

    9. MISCELLANEOUS.

    This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. This License shall be governed by the law of the jurisdiction specified in a notice contained within the Original Software (except to the extent applicable law, if any, provides otherwise), excluding such jurisdiction's conflict-of-law provisions. Any litigation relating to this License shall be subject to the jurisdiction of the courts located in the jurisdiction and venue specified in a notice contained within the Original Software, with the losing party responsible for costs, including, without limitation, court costs and reasonable attorneys' fees and expenses. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not apply to this License. You agree that You alone are responsible for compliance with the United States export administration regulations (and the export control laws and regulation of any other countries) when You use, distribute or otherwise make available any Covered Software.

    10. RESPONSIBILITY FOR CLAIMS.

    As between Initial Developer and the Contributors, each party is responsible for claims and damages arising, directly or indirectly, out of its utilization of rights under this License and You agree to work with Initial Developer and Contributors to distribute such responsibility on an equitable basis. Nothing herein is intended or shall be deemed to constitute any admission of liability.

NOTICE PURSUANT TO SECTION 9 OF THE COMMON DEVELOPMENT AND DISTRIBUTION LICENSE (CDDL)

The code released under the CDDL shall be governed by the laws of the State of California (excluding conflict-of-law provisions). Any litigation relating to this License shall be subject to the jurisdiction of the Federal Courts of the Northern District of California and the state courts of the State of California, with venue lying in Santa Clara County, California.

IMPORTANT-READ CAREFULLY: This License Agreement is a legal agreement between you
("Licensee") and Tanuki Software, Ltd. ("TSI"), under which TSI grants licenses
with respect to computer software, associated media, printed materials, and may
include online or electronic documentation.  PLEASE READ THIS AGREEMENT CAREFULLY
BEFORE YOU INSTALL, COPY, DOWNLOAD OR USE THE SOFTWARE ACCOMPANYING THIS PACKAGE.
BY INSTALLING, COPYING, DOWNLOADING OR USING THE SOFTWARE, YOU, ON BEHALF OF
YOURSELF AND/OR THE BUSINESS YOU REPRESENT, AGREE TO BE BOUND BY ALL TERMS AND
CONDITIONS OF THIS AGREEMENT INCLUDING ALL TERMS AND CONDITIONS INCORPORATED
HEREIN BY REFERENCE.  The Licensee may optionally request that this agreement be
signed by both parties:

License Agreement Number: TSILA-_____

Pursuant to this DEVELOPMENT SOFTWARE LICENSE AGREEMENT (the

"Agreement") dated this __th day of _____, 20__ (the "Effective

Date"), _____ ("Licensee") and Tanuki Software, Ltd.

("TSI") agree to the following terms and conditions:

Section 1 - Grant of License

Effective upon the payment of the license fees presented in Exhibit 1, TSI grants
to Licensee a non-exclusive, non-transferable, non-sublicensable right and license
to use, reproduce, display, sell, lease, distribute and transfer copies, directly
or indirectly, of the Software Program and documentation, in executable code form
```

only, as parts of Licensee Products within the Product Group(s) defined in Exhibit 1, for the purposes of marketing such Products to Licensee customers and for internal development of Products, during the period Licensee's subscription of the TSIMS (as defined in Section 5) effectively continues. Licensee may continue to market and distribute Product Versions containing the Software Program so long as such Product Versions have been completely developed by the end of the period Licensee's subscription of the TSIMS is active; provided however that under no circumstances may Licensee develop or continue to develop any new Product, or new Product Version, using or containing the Software Program after Licensee discontinues subscription of TSIMS. Licensee may not, under any circumstances, distribute or resell the Software Program as a stand-alone product, nor use the Software Program to create any Product to directly compete with the Software Program.

Where the Licensee qualifies as a Small Business, as defined in

Section 2.5, the Product Group restriction is removed and all Licensee

Products will be covered by this agreement.

Section 2 - Definitions

2.1. "Community Edition" shall mean versions of the Software Program distributed in source form under the Tanuki Software, Ltd. Community Software License Agreement (CSLA), and all new releases, corrections, enhancements and updates to the Software Program, which TSI makes generally available under the CSLA.

2.2. "Documentation" shall mean the contents of the website describing the functionality and use of the Software Program, located at http://wrapper.tanukisoftware.org

2.3. "Product" shall mean the computer programs, that are provided by Licensee to Licensee customers or potential customers, and that contain both the Software Program as a component of the Product, and a component or components (other than the Software Program) that provide the material functionality of the Product. If the Product is released in source form, the Software Program or any of its components may only be included in executable form. 2.4 "Product Version" shall mean a specific distribution or release of a Product. Any modifications to the distribution or release which include changes to program functionality or updated included modules or libraries constitute a new Product Version.

2.4 "Product Group" shall mean one or more Products or Product components which are designed as components of a common project, product, or product suite.

2.5 "Small Business" shall mean a company or organization with less than 100 employees and annual sales of less than 5 million USD, 4 million EUR, or 400 million JPY, depending on the currency used to purchase the Software Program, unless otherwise qualified in Exhibit 1.

2.6. "Software Program" shall mean the computer software and license file provided by TSI under this Agreement, including all new releases, corrections, enhancements and updates to such computer software, which TSI makes generally available and which Licensee receive pursuant to Licensee subscription to TSIMS. Some specific features or platforms may not be enabled if they do not fall under the feature set(s) covered by the specific license fees paid.

Section 3 - Licensee Obligations

Licensee shall be solely responsible for all marketing, manufacturing, packaging, documentation production, distribution and customer pricing of the Products, and ensure that the Products and Licensee's such activities shall be in compliance with the applicable laws and regulations. Except as otherwise provided in this Agreement, Licensee shall also assume all responsibility and liability to customers for related support and assistance. Under no circumstances may Licensee modify, decompile, reverse engineer or disassemble any executable code contained within the Software Program nor create or prepare derivative works of, or attempt to discover or modify in any way the underlying source code of the Software Program or any part thereof. Licensee agrees that Licensee will not, nor will Licensee authorize or license another to, sell, market or license the Software Program, or any portion thereof, as a standalone computer software program,

component or software development tool, or as a component or components of a computer software program, the chief marketability and functionality of which is the Software Program. Licensee further agrees that Licensee will not publish, present or document the application programming interface (API) of the Software Program except as required for specific use within the Product.

Licensee shall ensure that each end user receiving a copy of any Product shall receive a license agreement containing terms no less protective of the Software Program than those contained in Exhibit 2, which shall include the Copyright Notices described therein in a location that is obvious to Licensee's customers.

Neither the Software Program nor Product may be modified, nor in any way obfuscate or obstruct the copyright notice and license information displayed in the console and log files by the Software Program on startup.

Licensee may extend and/or modify the Community Edition of the Software Program and distribute under the terms of this agreement provided that a) the Software Program is only distributed in executable form, and b) a valid license key is distributed with Software Program such that the Software Program is able to access the license key, and c) the Copyright and "Licensed to {Licensee} for {Product}" notices are clearly visible in the console and log files of the Software Program on startup, and d) the "Licensed to {Licensee} for {Product}" notice displays the Licensee and Product values from the license key file.

Section 4 - Copyright and Trademark

Licensee acknowledges that all copyrights in the Software Program and the goodwill associated therewith are vested in and belong to TSI.

Section 5 - Maintenance Services

5.1 Scope and Duration TSI Maintenance Services ("TSIMS") are provided on an annual basis for the Software Program. The first year of TSIMS shall be included in the initial fees paid for the license. Successive one (1) year periods of TSIMS, can optionally be ordered for 25% of the then current rate established by TSI for an equivalent Agreement. TSI shall provide Licensee with notice of such renewal, at least thirty (30) days prior to the end of the current TSIMS period. In the event that Licensee allows TSIMS to expire, TSI will allow Licensee to obtain TSIMS for such Licensed Software including any new versions of the Licensed Software upon payment of 125% of all lapsed TSIMS fees.

For Licensees who have qualified as a Small Business, this status may be reviewed each time TSIMS is renewed. For Licensees who no longer qualify as a Small Business, this agreement will continue to cover existing Products and Product Groups, but additional Product Group(s) will require their own separate Agreement(s).

5.2 Maintenance Obligations of the Parties Licensee agrees to provide first line support for the Product and Software Program to Licensee customers, which support will include (i) appropriate number of trained personnel available to provide, in a competent manner, first line support of the Software Program to Licensee customers, (ii) log of all communication between Licensee and Licensee customer, as well as a reproducible test case (wherever possible) and any relevant information for any second line support cases that have been opened by Licensee with TSI.

Section 6 - Warranty and Limited Liability

Software Warranty: TSI warrants that, for a period of ninety (90) days from the initial delivery of the Software Program to Licensee, the Software Program, if used by Licensee in accordance with the Documentation, shall operate in material conformity with the Documentation for such Software Program. TSI does not warrant that the Software Program will meet all of Licensee requirements or that the use of the Software Program will be uninterrupted or error free. TSI's entire liability, and Licensee exclusive remedy, under this limited Software Warranty shall be for TSI (i) to attempt, through reasonable efforts, to correct any reproducible material nonconformity discovered within the ninety (90) day warranty period; or (ii) to replace the nonconforming Software Program with Software Program which conforms to the foregoing warranty. In the event TSI is unable to cure the breach of warranty described in this Section 6, after attempting the

remedies described in (i) and (ii) above, Licensee may return the Software Program and TSI shall refund any license and maintenance fees paid by Licensee to TSI for the Software Program provided the refund of maintenance fees shall be limited to the amount representing the period during which the Software Program showed nonconformity. The above remedies are available only if TSI is promptly notified in writing, within the warranty period, upon discovery of the nonconformity by Licensee and TSI's examination of the Software Program discloses that such nonconformity exists, and that the Software Program has not been (i) altered or modified, other than by TSI, (ii) subjected to negligence, or computer or electrical malfunctions, or (iii) used, adjusted, or installed other than in accordance with the Documentation.

TSIMS and Other Services Warranty: TSI warrants that any TSIMS or other services performed pursuant to the terms of this Agreement shall be performed in a professional and workmanlike manner consistent with generally accepted industry standards.

Disclaimer: THE EXPRESS LIMITED WARRANTIES SET FORTH ABOVE ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, EXPRESS, IMPLIED OR STATUTORY WITH RESPECT TO THE SOFTWARE PROGRAM, AND TSI EXPRESSLY DISCLAIMS ANY IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Limitation of Liability: IN NO EVENT SHALL EITHER PARTY'S LIABILITY ARISING OUT OF THIS AGREEMENT OR THE TERMINATION OF THIS AGREEMENT EXCEED THE AMOUNTS PAID OR DUE TO TSI HEREUNDER DURING A FULL YEAR IMMEDIATELY PRECEDING SUCH EVENT. IF SUCH LIABILITY RELATES TO PARTICULAR ITEMS OF SOFTWARE PROGRAM OR SERVICES PROVIDED BY TSI, SUCH LIABILITY SHALL BE LIMITED TO THE FEES PAID FOR THE RELEVANT SOFTWARE PROGRAM OR SERVICES. IN NO EVENT SHALL EITHER PARTY HAVE ANY LIABILITY FOR ANY SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOST PROFITS, LOSS OF DATA OR COSTS OF PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES, ARISING IN ANY WAY OUT OF THIS AGREEMENT UNDER ANY CAUSE OF ACTION, WHETHER OR NOT THE OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. NO ACTION MAY BE BROUGHT AGAINST TSI LATER THAN ONE (1) YEAR AFTER THE CAUSE OF ACTION OCCURRED. EXCEPT FOR CLAIMS MADE UNDER SECTION 7 (INDEMNIFICATION), IN NO EVENT SHALL TSI BE LIABLE FOR ANY CLAIMS, DEMANDS OR ACTIONS OF ANY NATURE BROUGHT BY ANY THIRD PARTY AGAINST LICENSEE. THESE LIMITATIONS SHALL APPLY NOTWITHSTANDING THE FAILURE OF THE ESSENTIAL PURPOSE OF ANY LIMITED REMEDY.

Warranty Claims: Any claims made by Licensee for the breach of a warranty set forth in this Section 6, shall be made in writing and delivered to TSI by the end of the applicable warranty period, and Licensee shall provide TSI a reproducible test case, if applicable, demonstrating the breach of warranty.

Section 7 - Indemnification

TSI warrants that the use or distribution of unaltered Software Program(s), or the exercise of the licenses granted hereunder, will not infringe any copyright or patent, or other intellectual property rights of any third party, and TSI has all rights necessary for the grant of the rights and licenses granted by this Agreement. TSI agrees to indemnify, defend and hold Licensee harmless from any and all actions, causes of action, claims, demands, reasonable costs, liabilities, reasonable expenses (including reasonable attorney's fees) and damages (collectively, a "Loss" or "Losses") arising from any claim that the Software Program infringes any copyright or patent, or other intellectual property right of a third party, provided, however: (1) Licensee shall promptly deliver to TSI notice in writing of any infringement claim made by a third party, and, if known, specify in reasonable detail the nature of the claim and the amount, or an estimate of the amount, of the liability arising there from. Licensee shall, at TSI's expense, provide to TSI as promptly as practicable thereafter information and documentation reasonably requested by TSI to support and verify the claim asserted, provided that, in so doing, TSI may restrict or condition any disclosure in the interest of preserving privileges of importance in any foreseeable litigation. (2) TSI may assume and retain sole control of the investigation, the defense or the settlement of any third party infringement claim made against Licensee or TSI with respect to the Software Program, including the employment of counsel or accountants, at its cost and expense. Licensee shall have the right to employ counsel separate from counsel employed by TSI in any such action and to

participate therein, but the fees and expenses of such counsel employed by
Licensee shall be at Licensee expense. TSI shall have the right to determine and
adopt (or, in the case of a proposal by Licensee, to approve) a settlement of such
matter in its reasonable discretion. TSI shall not be liable for any settlement of
any claim effected without TSI's prior written consent, which shall not be
unreasonably withheld. Whether or not TSI chooses to so investigate or defend
such claim, Licensee shall reasonably cooperate with TSI in the defense thereof
and shall furnish such records, information and testimony, and attend such
conferences, discovery proceedings, hearings, trials and appeals, as may be
reasonably requested by TSI in connection therewith. (3) If such a claim arises,
or in either party's judgment is likely to arise, Licensee agrees to allow TSI, at
TSI's option, to either (i) procure the right to permit the continued exercise of
the rights and licenses in the Software Program granted under this Agreement; (ii)
replace or modify the Software Program so it be-comes non-infringing, while
affording equivalent performance; or (iii) terminate the license for the
infringing Software Program and upon return thereof by Licensee, refund the
unearned portion of any license fees paid by Licensee for the remainder of the
current term hereof. (4) TSI shall have no indemnity obligation for claims of
infringement resulting from any combination, operation or use of the Software
Program, or any components thereof, with any software programs or data not
supplied by TSI if such infringement would have been avoided by use of the
Software Program alone. Licensee acknowledges and agrees that these four items are
the exclusive remedy of Licensee for damages for breach of warranty or
representations contained in this Section 7.

Section 8 - Termination

Should either party commit a material breach of its obligations hereunder, the
other party may, at its option, terminate this Agreement by written notice to the
party in default. Such notice shall identify and describe the default upon which
termination is based. The defaulting party shall have thirty (30) days from the
effective delivery of the notice to cure such default, which, if affected, shall
prevent termination by virtue of such default. Should an insolvency proceeding be
filed by or against either party, the other party may terminate this Agreement
forthwith by giving a written notice to the first party. Upon termination of this
Agreement, Licensee will either return to TSI or destroy all copies of the
Software Program and documentation then in Licensee's possession. Licenses to the
Software Program granted in the normal course of business by Licensee to its
customers shall survive termination of this Agreement. Licensee shall, within
thirty (30) days after the date of such termination, furnish TSI with a
certificate of compliance in accordance with this Section. The parties agree that
TSI shall have the right to enforce the obligations arising under this Section and
to enjoin or compel Licensee through injunctive relief. Licensee may retain a
commercially reasonable number of copies of the Software Program and documentation
solely for the purpose of supporting Licensee customers who purchased a Product
prior to the termination of this Agreement.

Section 9 - Export Controls

Licensee shall comply with, and ensure that Licensee distributors and resellers
comply with, all applicable laws, regulations, rulings and executive orders of
Japan or any other relevant jurisdiction relating to the export and re-export of
the Software Program or any products containing the Software Program. Licensee
shall not directly or indirectly export or re-export any Software Program or any
Products containing the Software Program unless Licensee have obtained a license
to do so if such a license is required. Licensee further agree that Licensee take
appropriate measure to ensure that the Software Program or any Products containing
the Software Program will not be exported or re-exported in violation of any
applicable laws or regulations of any relevant jurisdiction.

Section 10 - Entire Agreement

This Agreement, including any attachments, constitutes the entire agreement of the
parties with respect to the subject matter hereof and supersedes all prior
agreements, both oral and written, representations, statements, negotiations and
undertakings, with respect to the subject matter hereof, which such agreements,
representations, statements, negotiations and undertakings are merged herein. No
amendment or modification of this Agreement or any provision or attachment of this
Agreement shall be effective unless it is in writing and signed by both parties.

Section 11 - Governing Law

The validity, construction and performance of this Agreement shall be governed by the substantive laws of Japan (excluding conflicts of law principles). Licensee and TSI agree that any dispute arising out of this Agreement shall be subject to the exclusive jurisdiction of the Tokyo District Court of Japan. If any legal action is undertaken to enforce the terms of this Agreement, the prevailing party shall be entitled to reasonable attorney's fees and costs in addition to any other relief to which that party may be entitled.

 Licensee agrees that the United Nations Convention on Contracts for the International Sales of Goods will not apply to this Agreement.

Section 12 - Assignment and Benefit

Without the consent of the other party in writing, neither party may assign this Agreement; provided, however, TSI or Licensee may assign this Agreement to a wholly-owned subsidiary of the respective corporation or a corporation in which the shareholders of the respective corporation own a majority interest of the voting control provided that the assigning party remains obligated hereunder; further provided, however, TSI or Licensee may assign this Agreement to another corporation which acquires or has acquired substantially all of the stock or assets of the assignor. Where the Licensee had qualified as a Small Business, and the assignee does not, this agreement will continue to cover existing Products and Product Group(s), but additional Product Group(s) will require their own separate Agreement(s).

This Agreement shall be binding upon and shall inure to the benefit of Licensee and TSI and each party's successors, subject to the other provisions of this Section.

Section 13 - 3rd Party Components

(1) The Software Program includes software and documentation components developed in part by Silver Egg Technology, Inc.("SET") prior to 2001 and released under the following license.

    Copyright (c) 2001 Silver Egg Technology

    Permission is hereby granted, free of charge, to any person obtaining a copy of this software and associated documentation files (the "Software"), to deal in the Software without restriction, including without limitation the rights to use, copy, modify, merge, publish, distribute, sub-license, and/or sell copies of the Software, and to permit persons to whom the Software is furnished to do so, subject to the following conditions: The above copyright notice and this permission notice shall be included in all copies or substantial portions of the Software.

    THE SOFTWARE IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT. IN NO EVENT SHALL THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY CLAIM, DAMAGES OR OTHER LIABILITY, WHETHER IN AN ACTION OF CONTRACT, TORT OR OTHERWISE, ARISING FROM, OUT OF OR IN CONNECTION WITH THE SOFTWARE OR THE USE OR OTHER DEALINGS IN THE SOFTWARE.

Licensor represents and warrants that the Program does not contain any code subject to the GNU General Public License ("GPL"), GNU Lesser GPL, "copyleft" license, or any other license that requires as a condition of use, modification and/or distribution of such code that other software incorporated into, derived from, or distributed with such code be (i) disclosed or distributed in Source Code Program form; (ii) licensed for the purpose of making derivative works; or (iii) redistributable at no charge.

Section 14 - Confidentiality

Confidential Information means all technical, business, financial and other information that is disclosed by either party to the other, whether orally or in writing, and all the terms and conditions of this Agreement, and all non-publicly available information. "Confidential Information" will not include any information (a) that is publicly available through no breach of this Agreement by either party, (b) that is independently developed or was previously known by

either party, or (c) that is rightfully acquired by either party from a third party not under an obligation of confidentiality.

Except as expressly permitted by this Agreement, both parties shall not, nor shall they permit their respective employees, agents, attorneys or independent contractors to, disclose, use, copy, distribute, sell, license, publish, reproduce or otherwise make available Confidential Information of the other party. Each party will (a) secure and protect the other party's Confidential Information by using the same or greater level of care that it uses to protect its own confidential and proprietary information of like kind, but in no event less than a reasonable degree of care, and (b) advise each of their respective employees, agents, attorneys and independent contractors who have access to such Confidential Information of the terms of this paragraph. Notwithstanding the foregoing, either party may disclose the other party's Confidential Information to the extent required by applicable law or regulation, or by order of a court or other governmental entity, in which case such party shall so notify the other party as soon as practicable.

The confidentiality obligation hereunder shall survive termination or expiration of this Agreement.

Section 15 - Payments

All amounts payable are due net 30 days from the invoice date unless otherwise specified in the invoice. All amounts payable are gross amounts but exclusive only of any value added tax, sales tax or their equivalent. If any such tax is or will be chargeable, the Licensee shall pay the tax to the Licensor and the Licensor shall provide the Licensee with a tax invoice that meets all conditions necessary to allow the Licensee to reclaim such tax. If according to applicable law or regulations the Licensee is liable for any such tax, the Licensee will account for or pay the tax to the tax authorities. Each Party is responsible for all taxes (including, but not limited to, taxes based upon its income) or levies imposed on it under applicable laws, regulations and tax treaties as a result of this agreement. In the event that a withholding tax is payable, and the Licensee is required to deduct the withholding tax from the payment to the Licensor as required under applicable laws, regulations and tax treaties, the Licensee agrees to furnish evidence of such paid taxes to the Licensor as is sufficient to enable the Licensor to obtain any tax credits available to it. Such evidence must be translated into English or Japanese and be provided with the original, unless approved by the Licensor in writing.

6.2 Limitation TSI supports the Software Program as described in the then-current price book for which an annual TSIMS fee is paid. However, TSI will fix errors in the current version and the immediately preceding version of the Software Program. The Licensee will provide TSI with all the necessary information on the application, the platform, and the infrastructure at the supported Site. If any of such information is confidential, the Licensee should notify TSI in accordance with the confidentiality provision of the License Agreement.

6.3 Levels of Support 1st Level (or First Line Support) Support includes filing the problem as an issue in TSI's database, querying the TSI database for similar problems, bugs, and resolutions on the topic and communicating a resolution or plan for a resolution back to the Licensee.

2nd Level Support includes further research on the issue and includes, but is not limited to: recreating the problem in house, receiving and working with pieces of Licensee's code that illustrate the behavior; debugging Licensee's code and working to resolve the issue. 2nd Level Support issues are typically assigned to a TSI Product Specialist.

3rd Level Support includes but is not limited to the assistance of Product Support Specialists and Engineering Level Developers to assist in debugging code, providing hints to solve the problem, working with TSI product code to determine root causes.

When the Licensee acquires TSI products through a TSI Partner, it is expected that the main support channel will be established through that Partner. In that case, 1st level support will be handled by that Partner, and TSI will communicate solely with the Partner on Licensee's issues.

6.4 Priority of an Issue The Licensee and TSI customer support staff shall jointly set issue priority levels.

SEVERITY LEVEL 0 - CRISIS - An emergency deployment or production environment situation where the Software Program is inoperable or fails catastrophically and there is no workaround.

SEVERITY LEVEL 1 - HIGH - A detrimental situation where one of the following conditions occurs: 1.) performance of the Software Program degrades substantially under reasonable loads causing a severe impact on use; or 2.) one or more primary functions or commands of the Software Program is inoperable.

SEVERITY LEVEL 2 - MEDIUM - Occurs when use of the Software Program is noticeably affected but reasonably correctable by a workaround, documentation change, or patch which may be completely resolved and integrated into a future release.

SEVERITY LEVEL 3 - LOW - An inconvenient situation where the Software Program is usable but does not provide a function in the most convenient manner and the Licensee suffers little or no significant impact.

6.5 Licensee Assistance and Responsibility in Problem Resolution When filing an issue, Licensee shall make the following information available to TSI: - Maintenance Support Agreement Number Version (including revision level) of the TSI Software Program involved and any supporting product of software involved - Platform (Including Operating System Revision Level) of the Operating Environment - Error or other warning or advisory messages which you have been receiving - A reproducible test case where applicable Any trace, log, and/or console files Configuration files Severity Level of problem Priority Business or other justification for Severity Level 0 priority issues - Licensee responsibility with regard to assisting in resolving the Licensee issue includes providing a Licensee on-site technical contact, whose availability and response should mirror the response level requested of TSI, to provide resource and operational assistance.

6.6 Response/Resolution Time Within the business hours of the Customer Support Engineer responsible for the issue: Response Time: For the most prompt service, relevant technical detail and quickest response time, (generally less than 1 day) issues should be reported via email at wrapper-support@tanukisoftware.com. Response to issues reported to Customer Support through fax, or telephone may have longer response times.

Initial Analysis/Resolution Time:

Crisis Handled on a Case by Case Basis, but initial response will be within 1 Business Day

High Within 5 Business Days

Medium Within 10 Business Days

Low Subject to Development and Customer Support Priority

Resolution means that Customer Support will use its reasonable efforts to resolve Licensee issues as prioritized above. Resolution may include: specification of a workaround; identification of a bug; or the recognition that additional analysis work needs to be done, on the part of Customer Support and the Licensee, which will extend beyond the initial resolution time. In all cases, resolution of issues by Customer Support will require the Licensee to assist in the following: documentation and reproduction of the issue; provision of a Licensee contact person with whom TSI Customer Support can maintain contact to arrange for analysis, testing, systems, and other resources and other tasks in support of resolution of the Licensee's problem and to whom status reports and requests for resources can be addressed. Ongoing communication shall be maintained regarding Licensee issue status and progress towards resolution between TSI Customer Support and the Licensee's issue contact.

6.7 Notification The Licensee will, by default, be notified by e-mail of all relevant updates on the issue since appropriate levels of technical detail are often best captured and presented via written e-mail. TSI's Support staff can also maintain telephone contact with the Licensee, if requested.

6.8 Distribution of Updates Shipment of Updates and New Versions will be made on a request-only basis. Requests can be made through an e-mail message.

6.9 Licensee Issues Are Typically Handled by Customer Support Engineers This is the primary and usual scenario. Contact is maintained between the Licensee and the TSI Customer Support Engineer ("CSE") responsible for the issue. The e-mail address to be used is: wrapper-support@tanukisoftware.com

END-USER LICENSE AGREEMENT ("EULA") FOR SMARDEC'S PRODUCTS

1.     GENERAL. The software, documentation and any other materials accompanying
this EULA whether on disk, in read only memory, on any other media or in any other
form (collectively the "Software Product") are licensed, not sold, to you by
Smardec ("Smardec") for use only under the terms of this EULA, and Smardec
reserves all rights not expressly granted to you. The rights granted herein are
limited to Smardec's intellectual property rights and do not include any other
patents or intellectual property rights. You own the media on which the Software
Product is recorded but Smardec retains ownership of the Software Product itself.
By installing, copying, or otherwise using the Software Product, you agree to be
bound by the terms of this EULA. If you do not agree to the terms of this EULA, do
not install, use, distribute or replicate in any manner, any part, file or portion
of the Software Product.

2.     RIGOROUS ENFORCEMENT OF INTELLECTUAL PROPERTY RIGHTS. If the licensed right
of use for this Software Product is purchased by you with any intent to reverse
engineer, decompile, create derivative works, and the exploitation or unauthorized
transfer of, any Smardec intellectual property and trade secrets, to

include any exposed methods or source code where provided, no licensed right of
use shall exist, and any products created as a result shall be judged illegal by
definition of all applicable law. Any sale or resale of intellectual property or
created derivatives so obtained will be prosecuted to the fullest extent of all
local, federal and international law.

3.     GRANT OF LICENSE. This EULA, if legally executed as defined herein,
licenses and so grants you the following rights:

1.     Single Developer License. You may install and use multiple copies of the
Software Product or any prior version legally licensed once a single developer
license ("Single Developer License") has been obtained from Smardec or a reseller
authorized by Smardec. A Single Developer License for the Software Product may not
be shared or used concurrently by more than one individual developer. In a project
that uses the Software Product, each individual developer on the project requires
```

a separate Single Developer License as long as they need to access Smardec's products and documents.

2.   Site License. You may install and use multiple copies of the Software Product or any prior version legally licensed once a site license ("Site License") has been obtained from Smardec or a reseller authorized by Smardec. A Site License for the Software Product may be shared or used concurrently by any number of individual developers inside the company that purchased the Site License, but in borders of a single company office/location only (location would normally be defined as a single building, but could be considered as a number of buildings within the 30 miles geographical location from the main office of the company that purchased the Software Product).

3.   Business License. You may install and use multiple copies of the Software Product or any prior version legally licensed once a business license ("Business License") has been obtained from Smardec or a reseller authorized by Smardec. A Business License for the Software Product may be shared or used concurrently by any number of individual developers in all company offices around the world. No geographical restrictions are applied to the Business License, only juridical company borders are important.

4.   Deployment License. The deployment license ("Deployment License") should be purchased in the case you have exposed the API (application program interface) provided by Smardec to your end users. That is your end user will use our APIs directly to create application through the purchase of your product which includes Smardec's Software Product. In the specified case the Deployment License should be purchased in addition to the Single Developer License(s), Site License or Business License.

5.   Source Code License. In addition to the licenses and rights granted above, Smardec grants you the right to use and modify the Software Product's source provided you licensed source code. Different from the licenses above, source code license is issued on a per project basis. Each project needs to purchase only one copy of source code license ("Source Code License").

A.   Smardec shall retain all right, title and interest in and to all updates, modifications, enhancements and derivative works, in whole or in part, of the Software Product's source code created by you, including all copyrights subsisting therein, to the extent such modifications, enhancements or derivative works contain copyrightable code or expression derived from the Software Product's source code; provided, however, that Smardec grants to you a fully-paid, royalty free license, to use copy and modify such updates, modifications, enhancements and derivative works or copies thereof for use as authorized in this EULA.

B.   You may not distribute the Software Product's source code, or any modified version or derivative work of the Software Product's source code, in source code form.

C.   Smardec requires all developers in your project who plan to access Software Product's source code signing on the source code license. As

long as they signed, they become registered developers. An alternative to this is to let a delegate signs source code license as an organization. The delegate will be responsible for letting other developers who plan to access the source code reviewing this license agreement first before releasing them the access.

D.   The Software Product's source code contained herein and in related files is provided to the registered developer for the purposes of education and troubleshooting. Under no circumstances may any portion of the source code be distributed, disclosed or otherwise made available to any third party without the express written consent of Smardec.

E.   Under no circumstances may the Software Product's source code be used in whole or in part, as the basis for creating a product that provides the same, or substantially the same, functionality as any Smardec's products.

F.   The registered developer acknowledges that this source code contains valuable and proprietary trade secrets of Smardec. The registered developer agrees

to expend every effort to insure its confidentiality. For example, under no circumstances may the registered developer allow to put the source code on an internal network where he or she has no control.

G.   Due to the insecurity of Java byte-code, if you plan to use classes that built from the source code directly, you must agree to obfuscate the classes before distributing it to your customers.

H.   SOURCE CODE IS SOLD AS IS. SMARDEC DOES NOT PROVIDE ANY TECHNICAL SUPPORT FOR SOURCE CODE.

4.   DESCRIPTION OF OTHER RIGHTS AND LIMITATIONS.

A.   Limitations on Reverse Engineering, Decompilation, and Disassembly. You may not reverse engineer, decompile, create derivative works, modify, translate, or disassemble the Software Product, and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation. You agree to take all reasonable, legal and appropriate measures to prohibit the illegal dissemination of the Software Product or any of its constituent parts and redistributables to the fullest extent of all applicable local, US Codes and International Laws and Treaties regarding anti-circumvention, including but not limited to, the Geneva and Berne World Intellectual Property Organization (WIPO) Diplomatic Conferences.

B.   Separation of Components, Their Constituent Parts and Redistributables. The Software Product is licensed as a single product. The Software Product and its constituent parts and any provided redistributables may not be reverse engineered, decompiled, disassembled, nor placed for distribution, sale, or resale as individual creations by you or any individual not expressly given such permission by Smardec. The provision of source code, if included with the Software Product, does not constitute transfer of any legal rights to such code, and resale or distribution of all or any portion of all source code and intellectual property will be prosecuted to the fullest extent of all applicable local, federal and international laws. All Smardec libraries, source code, redistributables and other files remain Smardec's exclusive property. You may not distribute any files, except those that Smardec has expressly designated as Redistributable. The Software Product may include certain files ("Redistributables") intended for distribution by you to the users of programs you create. Redistributables include jar file (or class files if you intend to package all Smardec classes into your own jar). Developer Guide of Software Product (if any) or any other documents (such as javadoc) which are intended to teach you how to use the Software Product, and sample code are not considered as redistributables. Subject to all of the terms and conditions in this EULA, you may reproduce and distribute exact copies of the Redistributables, provided that such copies are made from the

original copy of the Software Product or the copy transferred to a hard disk. Copies of Redistributables may only be distributed with and for the sole purpose of executing application programs permitted under this EULA that you have created using the Software Product. You may reformat or recombine the original distribution format of redistributables provided by Smardec. However Smardec will not support or have any liability for such use.

C.   Software Transfer. You may not rent, lease, or lend the Software Product. You may not permanently or temporarily transfer any of your rights under this EULA to any individual or entity. Regardless of any modifications which you make and regardless of how you might compile, link, and/or package your programs, under no circumstances may the libraries, redistributables, and/or other files of the Software Product (including any portions thereof) be used for developing programs by anyone other than you. Only you as the licensed end user have the right to use the libraries, redistributables, or other files of the Software Product (or any portions thereof) for developing programs created with the Software Product. In particular, you may not share copies of the Redistributables with other co-developers.

D.   Support Services. Smardec may provide you with support services related to the Software Product ("Support Services"). Use of Support Services is governed by Smardec policies and programs described in the user manual, in

on-line documentation and/or other Smardec provided materials.
